## Why do we use S/M, L/XL, etc. sizes?

1. We design products that can be adjusted to the figure by customers.
2. The use of materials and additives that are stretchy and soft has a positive effect on sales of the product. The customer is not afraid of the rigid size framework imposed by bra-fitting brands.
3. As the main fabric we use elastic mesh, soft and adapting to the figure.
4. Our sizes make the choice easier for clients who do not want to use the classic bra-fitting lingerie. The product and details are designed in such a way to make sure that the underwear fits well.
5. We use adjustments in many places: waist, neck chockers. EXQUISITE products have 3 degrees of bra adjustment under the bust and adjustable strap heights. We use adjustments also in open briefs, to ensure maximum comfort of use.
6. We use professional design solutions: cuts, darts, pinches in a way not to be strictly limited to one size, but give flexibility of choice for the clients.
7. Providing the product in S/M, etc. sizes reduces the need of extensive stock holding, as in bra-fitting offering.

**Above all, we test all our sizes on models of different sizes and modify the designs for maximum comfort. Thanks to this, we are seeing high loyalty levels of shoppers.**

Detailed dimensions of the models are posted on the product sheets.

Size chart of the set presented on photo:

Exquisite size	Standard size	Bust size A	Back size B	Cup size	Waist size C	Cup height	Length of garter elastic straps	Height of back fastener (belt)	Height of panties
S / M	36/38	85-90cm	74-79cm	B	73-78cm	15cm	18cm	18cm	19cm
L / XL	40/42	97-102cm	86-91cm	C/D	85-90cm	16cm	18cm	19cm	20cm
2/3XL	44/46	108-113cm	108- cm	E/F	107-112cm	17cm	18cm	21cm	21cm

What is important to us?

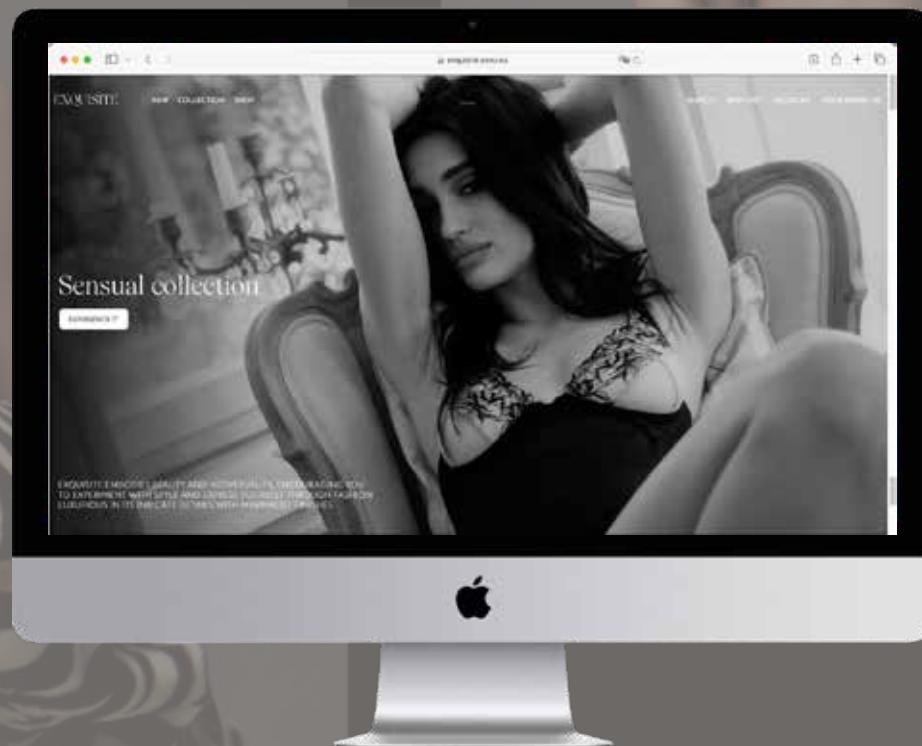

1. We use elastic lace - delicate and adaptable to the body.
2. We use comfortable trimmings, such as elastic tapes, which have a soft part adhering to the skin. The underwires are lightweight and professionally support the bust.
3. We test all our materials (machine wash) and make sure they do not change shape, dimensions or color.
4. We use metal parts without nickel content.
5. Plastic elements are soft in touch and do not irritate delicate areas of the skin.
6. We use viscose crocs in closed panties for wearing comfort.
